

minitools

Minitools Catalogue 2025

minitools®

EQUIPMENT AND SPARE PARTS FOR
INSTRUMENT CLUSTERS AND INFOTAINMENT SYSTEMS

Active in the automotive field for several years, Minitools produces and sell parts, components and tools for several cars' makes and models electronics' repair.

Why replace an entire device when you can just repair it?

Replacing an instrument cluster or sat nav may be quite expensive: with Minitools you'll only need to **replace the damaged component**, **saving money** and, most importantly, **respecting the environment**. Now more than ever our planet needs us to maximise our resources, reducing wastages and disposals, repairing something rather than replacing it; that's why Minitools highly believe in **circular economy**.

On the Minitools catalogue you can find: **LCD display** for instrument clusters and digital speedometers; **TFT screens** for original sat nav and digital dashboards; **gears** for classic cars and youngtimers' odometers; **tools** specifically developed to repair several kinds of dashboards; **flat cables** for LCDs repair; a **wide range of semiconductors** and a lot more.

Mend it, don't end it

INDEX

DASHBOARD SPARE PARTS 4

- Displays 5
- Displays and touch screen for infotainment 58
- Flat cables 76
- Pointers motors and needles 88
- Gears 103
- Buzzers 120
- Transformers 125
- Speedometer cables 126
- Other parts 139
- Instrument clusters 143
- Gauge faces 144
- Lenses 154
- Frames 162

MISCELLANEOUS 164

- Steering sensors, tester and adapters 165
- Car keys shells and buttons 168
- Microswitches 173
- Other parts 177

COMPONENTS AND CONNECTORS 178

- Relays 179
- Package 221
- Semiconductors 227
- Passives 256
- Optoelectronics LED 263
- Connectors 264
- OBD connectors 269
- Encoders 275
- Industrial displays 279
- Lamps 336

EQUIPMENT 351

- CAN generators and power supply units 352
- Programmers 356
- IN-Clip and test clip 360
- Sockets and adapters 366
- Removal tools 375
- Tools 380
- Soldering supplies 391
- Modular boxes 397
- Sleeves 398

SPARE PARTS FOR DASHBOARDS AND INFOTAINMENT SYSTEMS

- LCD displays
- TFT screens
- Carbon made flat cables for LCDs
- Gears for youngtimers and classic cars odometers
- Stepper motors and pointer motors for gauges
- Chime buzzers
- Transformers
- Speedometer cables

TECHNICAL SUPPORT

The screenshot shows a chat interface for a contact named 'Support'. The contact's profile picture is a person wearing a headset with a green plus sign. The email address 'store@minitools.com' is displayed next to the name. The chat history shows a system message: 'Support joined the chat'. Below this is a message from the contact: 'We give technical support on all products! Feel free to contact us for any query from Monday to Friday (8.30-13.00 / 14.00-17.30 CET)'. The message is timestamped 'just now'. At the bottom of the chat window is a text input field with the placeholder 'Type your message here', a smiley face icon, and a paperclip icon.

IMAGES		PRODUCT CODE	DESCRIPTION
		SEP-RE-CAN001I	CAN-BUS signals emulator useful to power up Ford C-Max Mk2, Focus Mk3 and Kuga Mk2 instrument clusters on a test bench. The package includes: CAN generator; connection cable to the dashboard. For extra info please visit our E-Commerce.
		SEP-RE-CAN002I	CAN-BUS signals emulator useful to switch on several Mercedes instrument clusters on a test bench. The package includes: CAN generator, 1 kit for 5 repairs of Mercedes Marco Polo, Vito and Metris W447 instrument clusters with blank, flickering or visible only against the light display. For all compatible models and extra info please visit our E-Commerce.
		SEP-RE-CAN003I	CAN-BUS signals emulator useful to power up several Renault, Dacia, Fiat, Mitsubishi, Nissan, Opel, Vauxhall instrument clusters on a test bench. The package includes: CAN generator; connection cable to the dashboard. For all compatible models and extra info please visit our E-Commerce.
		SEP-RE-CAN004I	CAN-BUS signals emulator useful to power up Audi A3 8P and Audi TT 8J dashboards on a test bench. The package includes: CAN generator; connection cable to the dashboard. For extra info please visit our E-Commerce.
		SEP-RE-CAN005I	CAN-BUS signals emulator useful to power up Audi A4 B8, A5 B8, A6 C6, Q5 8R and Q7 4L dashboards (models with grey connector) on a test bench. The package includes: CAN generator; 12V 5A power supply unit; connection cable to the dashboard; 1 set of components for 5 repairs of Audi A6 C6 instrument clusters For extra info please visit our E-Commerce.
		SEP-RE-CAN006I	CAN-BUS signals emulator useful to power up Renault Scénic II dashboards on a test bench. The package includes: CAN generator; connection cable to the dashboard, 1 kit of components for instrument clusters repairs. For extra info please visit our E-Commerce.
		SEP-RE-CAN007I	CAN-BUS signals emulator useful to power up DAF CF / LF / XF Series (models from 2002 to 2013) dashboards on a test bench. For extra info please visit our E-Commerce.
